The Rev. T. DeWitt Talmage says—
"A newspaper whose columns overflow with the advertisements of business men has more influence in the community than any other agency that can be employed. People who write there in business, capital and labor will locate where there is enterprising community. No power on earth is so strong to build up a town as newspapers well patronized, and this power should be appreciated."

He waited long, and just before she told him why, a girl held up his hand and said he guessed he knew why Nathan did."

"Well, tell the class," the teacher said. "Till finally Nathan said: 'Who answered, children in a lamb, 'Hence, 'Hence, 'Hence.'"

OLD MAYSVILLE COUPLE.

Dr. and Mrs. Warden to Celebrate Golden Wedding Anniversary.

Dr. and Mrs. J. W. Warden will celebrate their golden wedding anniversary on Monday at their home in Louisville.

Probably in all the South there is no better known Minister of the Baptist faith than the Rev. J. W. Warden. He was ordained at Frankfort in 1840 and two years later he accepted a call to the pastorate of the Baptist Church in this city. A few months after he began his duties he married Miss Elizabeth L. Tureman. For five years they resided in Maysville, Dr. Warden then accepting the pastorate of a Lexington, Mo., Church. Later he moved to Jackson, Kas., and from there to Lawrence, Kas. Twenty-six years ago he moved to Louisville and for five years was Pastor of the Walnut Street Baptist Church, giving up the pastorate to take charge of the missionary work in Kentucky. For the past year he has had charge of Institute work and his efforts have been along educational lines.

Before the election you could find out candidates two at a time; since you can't find one with a microscope.

Put your finger on the map and then read the industrial reports, and you will find that the progressive states are Republican. Compare Kentucky with Ohio if you want a near-at-home illustration.

It took Governor BRADLEY and his organization twenty years to lead Kentucky Republicans to victory. It took Senator SAPP and Dingus DEMOS just eighteen months to scatter the party Hellwells.

One of the defeated city candidates says there is unmistakable error in the returns. In a single Ward alone, where only 38 votes were recorded for him, 96 good and truthful people have already assured him that they voted for him.

Last year the Republican majority in Louisville for Mr. YERKES was 4,163. This year Mr. GRAINGER, Democrat, carried the city by nearly 7,000. Senator SAPP and Collector DEMOS ought to feel proud of their accomplishment.

One thing has been made absolutely certain by the recent election in this state—the enforcement of Mr. TAYLOR's order, in sentences and words and letters as follows, namely, to wit:

"Kentucky should be so permeated by the next Legislature that there will not be even a remote idea of the Republican party controlling the next Legislature or anything else. The members of that party have several times demonstrated that they do not know what to do with an office when they get it, and others, after claiming an election by the people, have shown their inability to hold it. Therefore, the people have not the time to be fooling with the Republicans of Kentucky."

How do you like it, "Boss" SAPP?

EDITOR-JUDGE WYATT copies—evidently with his own indorsement—a criticism on Governor DUBOIS of Indiana, which calls Governor TAYLOR an Anarchist and adds—

"There is no question of his guilt, and Governor DUBOIS knows he is guilty, and therefore he is as guilty of Anarchism as a Co. of Rebels." "In fact neither of the two cowards as good as is COLONEL'S. No one questions COLONEL'S crime, and he should and will pay the penalty. But what he did was done out openly, boldly and above board, while TAYLOR sat cowardly in his office and urged another coward to conceal himself in a room, and thus conceal from view, what his victim in the back."

Have a care, Judge! You're treating dangerous ground, and the first thing you know you'll be charged with siding with the Republicans, as they have all along argued that GOZBEL was "shot in the back."

BRAIN-FOOD BENEFICE.

Another ridiculous food fad has been launched by the most competent authorities. A few daily doses, stimulate the liver to healthy action, purify the blood, and make you feel buoyant and vigorous. You can get Dr. Williams' Pink Pills at J. W. Pittsburgh Commercial Gazette.

When it became known that Judge Cantrell insisted upon presiding at the second trial of Caleb Powers the friends of the prisoner and persons who hoped to see a fair trial were discouraged. The result has simply justified that discouragement. As a matter of self-respect Judge Cantrell should have vacated the bench and permitted another judge to preside. The defendant's counsel petitioned for this, urging Judge Cantrell's political bias as a reason, but the judge himself passed upon the motion and refused it. The jury was composed entirely of Democrats. The judge's charge was almost an order to convict. The trial was a repetition of the one that first convicted Powers of complicity with the murder of Goebel, and the way in which both were conducted leaves a very bad impression of the Kentucky method of handling cases into which political enters.

"THEM'S OUR SENTIMENTS!"

Lexington Herald.
The result in Louisville ought to have been, and we presume was, anticipated. It is just routine to the miserable policy of Mr. Sapp and the Republican organization. The President ought to have removed Mr. Sapp months ago and the Republican State Committee ought to have removed him from the Chairmanship of the Committee and discharged the entire Committee. The loss of the Senate of Kentucky is largely due to the action of Mr. Sapp and the approval of it by the Committee and the State Committee. The people pointed out that the Lower House would be decidedly Democratic, and that in our judgment the Senate would also be Democratic. The Republican party for the Republicans to elect enough Senators to divide the Senate equally. The truth is that the only leader the Republican party of Kentucky has in the last fifteen years, who appealed to the people and earnestly fought for popular support instead of Federal patronage, is Governor William H. Bradley; and as soon as he achieved victory in 1885 he was set upon by a number of Republican office seekers, who had seized the machinery of the party. By the help of the Sound Union Democrats McKinley carried the state in 1896. Through the efforts of the Brown Democrats Taylor was elected in 1899. The nomination of Mr. Bailey as the Clerk of the Court of Appeals in 1907 was meant as a slap at Bradley. The nomination of Governor Taylor was worse than a slap, and was also in part an assault upon Governor Bradley.

An Open Letter.

We desire to say that our business since January 1st has passed the mark anticipated. We wish to be so sure that there are we are not attempting to talk to business people and put in the form of a polished essay. The advantage of having merchandise different from your competitors is apparent, provided that the retailer is known to be reliable. Does not a good deal of advertising appear to you as though the advertisers were indulging too freely in fine words? Most of them seem to say something that means nothing. Names are invited for goods that have no bearing whatever to the materials; turned and twisted until they are no longer relevant, all of which is done to tone the product, because the product hasn't enough of it. Fine phrases make fine little, but fine words do not make fine goods. We are strong believers in advertising because it is a good thing, but advertising doesn't pay unless constructed on a proper basis, and that is to plainly tell people what you have to sell, and sell it as low as is consistent with legitimate business methods.

Our spring importation of Dress Goods, White Goods, Carpets, Mattings and Housekeeping Goods generally is complete. Come and learn prices, which will be found to be as cheap as the cheapest, quality considered. Respectfully,

GEORGE COX & SON.

82 years selling good goods.
